RESEARCH EXPLORER RUHR (RER)

JOIN US THIS SUMMER!

Research Explorer Ruhr (RER) is a programme for international researchers (doctoral or postdoctoral) from all disciplines who are interested in exploring the research landscape in the Ruhr Area and Bochum in particular.

If you are considering a postdoc at Ruhr-Universität Bochum (RUB), but aren't sure if it is the right fit for you, RER offers you the opportunity to come to RUB for a two-week stay during the summer to explore postdoc opportunities at an institute that fits your research profile.

The invitation to Bochum includes travel expenses and accommodation. In addition to researching at excellent chairs and institutes, you will have the chance to attend optional workshops on postdoc funding schemes and building a research career in Germany. A series of guided excursions will also help you get acquainted with the culture of the Ruhr Area. The programme is conducted entirely in English.
