## 2. Equal opportunities

---

We try to take unavoidable personal restrictions in your academic work into consideration. Therefore, we would like to give you the opportunity to briefly explain your personal circumstances that lead to a special need in the implementation of your international activity in your application. We invite you to take this need into account when designing your activity and your application.

In order to raise the awareness of the researchers involved in the review process before reading your application, we ask you to briefly explain the needs arising from your unavoidable personal restriction. Keep your statements in such a way that they can be passed on to the reviewers (e.g. do not give any diagnoses).

Please enclose proof for your unavoidable personal restriction with your application. This proof will only be checked by the RUB Research School office and is **not part of the documents which are handed over to the reviewers.**

Please explain here in max. 1,000 characters in which way your event organization is affected by your restriction. What measures are you taking to handle this? Examples: Concentrated work over 8 hours is not possible and therefore more time is required; talks can only take place in a reduced number per day and must therefore be spread over more days, etc. The schedule of the event in which this measure is then included is attached as a separate document to the application itself.

Explanation max. 1,000 characters
